Limitations and Conditions:

The FAA approved Airplane Flight Manual Supplement (Jet Accessories, Inc., document AFM-400-0011, pages 1 thru 4), dated June 28, 1978, or later approved revision, is a part of this approval and must be attached to the basic Airplane Flight Manual when the model EP-001 starter/generator decoupler system is installed.

This approval should not be extended to airplanes of these models on which other previously approved modifications are incorporated unless it is determined that the interrelationship between this change and any other previously approved modifications will introduce no adverse effect upon the airworthiness of the aircraft.
